Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Geology of the Burnley Coalfield: And of the Country Around Clitheroe, Blackburn, Preston, Chorley, Haslingden, and Todmorden The country of which the Geology is described in the present Memoir was surveyed by Mr. Edward Hull and Messrs. Green, Tiddeman, Dakyns, Ward, Gunn, De Ranee, and Strnngways, under the direction of Professor Ramsay. This area, comprised in quarter-sheets 89 N.W. and N.E., 88 N.W., and 92 S.W., includes the highly developed carboniferous series of North Lancashire, the small but rich coal fields of Burnley and Blackburn, and the Coppull district of that part of the Lancashire coal-mcasurcs which is known as the Chorley Coalfield. The Permian and Triassic rocks, on the west side of the great fault which cuts off the carboniferous rocks, are also described; as well as the drift and post-glacial deposits of the plain about the estuary of the Kibble and which form the seaboard of that part of Lancashire. The greatest portion of the Memoir was written by Mr. Hull, by whom also most of the ground was surveyed; a considerable part being, however, from the pen of Mr. De Ranee. Mr. Tiddeman deserves especial mention as not only having contributed to the Memoir, but as having acted as general editor of the whole; in the performance of which duty he has spared neither pains nor time. A very valuable stratigrnphical list of the fossils occurring in the district has been drawn up by Mr. Etheridge, Palaeontologist to the Survey, as an appendix; while a list of the works and papers bearing upon the geology of the district of which the Memoir treats has been added by Messrs. Whitaker and Tiddeman...
