

Efficient Algorithms for Listing Combinatorial Structures (Hardback)

Filesize: 7.65 MB

Reviews

This publication can be really worth a go through, and superior to other. It is amongst the most amazing publication we have go through. You wont feel monotony at anytime of your own time (that's what catalogues are for about when you request me).

EFFICIENT ALGORITHMS FOR LISTING COMBINATORIAL STRUCTURES (HARDBACK)

To download **Efficient Algorithms for Listing Combinatorial Structures (Hardback)** PDF, make sure you access the hyperlink below and download the file or get access to additional information which are in conjunction with EFFICIENT ALGORITHMS FOR LISTING COMBINATORIAL STRUCTURES (HARDBACK) ebook.

CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 2012. Hardback. Book Condition: New. New.. 248 x 180 mm. Language: English . Brand New Book ***** Print on Demand *****.First published in 1993, this thesis is concerned with the design of efficient algorithms for listing combinatorial structures. The research described here gives some answers to the following questions: which families of combinatorial structures have fast computer algorithms for listing their members? What general methods are useful for listing combinatorial structures? How can these be applied to those families which are of interest to theoretical computer scientists and combinatorialists? Amongst those families considered are unlabelled graphs, first order one properties, Hamiltonian graphs, graphs with cliques of specified order, and k -colourable graphs. Some related work is also included, which compares the listing problem with the difficulty of solving the existence problem, the construction problem, the random sampling problem, and the counting problem. In particular, the difficulty of evaluating Polya's cycle polynomial is demonstrated.
